

Retractable Nozzle Vacuum Sealer – 88.9cm w/ Gas Purge

Foot pedal activated gas-flush vacuum packaging at its finest. The AVN's 6.35mm wide sealing element delivers a leak-proof seal for electronic devices that require moisture barrier bags. With one touch of the pedal, the AVN flushes out oxygen and moisture with nitrogen, the automated stainless steel nozzle retracts, and your sensitive components are sealed in seconds. Clean Room compatible, the AVN is also ideal for dry packaging applications on trays, tape and reel, tubes and a variety of SMD shipping containers. Combine the AVN's precise automation with speed, extensive safety features and incredible durability, and faulty seals resulting from operator or machine error are virtually eliminated. Providing additional functionality and convenience, the AVN's gas-flush feature can be switched off for impulse heat only sealing.
